Dear Friends,

In the July/August issue of the Captain's Log, I announced plans to expand our footprint further into the Lancaster market with the opening of our 26th office in Mount Joy, Pennsylvania. We opened our doors on September 6th and we already feel like part of the neighborhood. Building an experienced, well known sales staff to drive our success in this market was essential. You can learn a little more about this impressive group on pages 3 and 4.

Having a strong, local, dedicated staff has always been at the heart of our success in all of our markets. They are our strongest asset and fostering their growth and appreciating their hard work builds loyalty. In this issue of the Captains Log, you'll read about how this philosophy enables us to promote existing employees to new positions and about a few who have chosen to retire after spending many years as members of our family.

Speaking of retirement, check out the article on page 4, written for you by Matt Stroup, one of our Certified Financial Planners, who says if you're having conversations about retirement, it's probably time to do more than talk.

In closing, I'd like to ask that you remember our men and women in uniform. Because of their sacrifice, we have the pleasure of enjoying the holidays with family and friends, something many of them won't experience this year. May the gifts of peace, good health, and happiness be with you and your families throughout this holiday season.

Many of you are already out of the workforce and enjoying the benefits of being retired. For others, retirement is right around the corner and you've worked for over 30 years to save all you could. The question is — will it be enough — and the time to find out is now.

You've probably been kicking around ideas about what age you'd like to retire, where you'll live, the places you'd like to go and the things you'll do. An effective retirement plan addresses both the lifestyle and financial aspects of retiring. How will you fund these expectations?

- What type of lifestyle do I expect to enjoy?
- Is downsizing or relocating part of my plans?
- How will I pay for Health Care until Medicare kicks in at the age of 65?
- How will my spouse be taken care of upon my death?
- Where will my retirement income come from?

Formalizing your lifestyle wishes and evaluating how you anticipate paying for them is key to planning a happy retirement. But don’t do it alone. Talk with your spouse, your family members and a professional.

"Good fortune is what happens when opportunity meets with planning." - Thomas Edison
